KESTEVEN AND SLEAFORD HIGH SCHOOL

Computing Scheme of Learning

Year 7 – Topic 2 – Presentations

Intent – Concepts

What knowledge will students gain and what skills will they develop as a consequence of this topic?

Know

- Understand how to use the standard features of MS Powerpoint including templates, animations, transitions and multimedia
- Understand the guidelines for creating a professional presentation and how to produce high-quality, error-free work
- Understand the key steps to effective presentation including pace, interaction, vocal clarity and eye contact

Apply

- Create a presentation introducing themselves to their new classmates, adhering to the guidelines for a professional presentation and following standard conventions
- Present their work to peers with increasing confidence

Extend

- Investigate and use more advanced functions in PowerPoint including timing, hyperlinks and media

What subject specific language will be used and developed in this topic?

- *Presentation:* the process of presenting a topic to an audience
- *Slide:* one page of an onscreen presentation
- *Transition:* An effect that occurs between slides
- *Animation:* An effect that occurs within a slide

What opportunities are available for assessing the progress of students?

- In-Lesson observation & feedback
- Teacher assessment and peer feedback on presented work
